

ndnrtc - Bug #1844

Compilation in C++11 mode broken

08/11/2014 07:33 PM - Alex Afanasyev

Status:	New	Start date:	08/11/2014
Priority:	Normal	Due date:	
Assignee:	Peter Gusev	% Done:	0%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
When ndn-cpp is compiled in C++11 mode, ndnrtc does not compile.			
https://github.com/cawka/ndnrtc/commit/d8c6589a27ff09f19e9237b89b948335d1c92ab9 fixes most of the problems, but needs revision before actually merging.			

History

#1 - 08/14/2014 10:32 PM - Peter Gusev

Which flags/envvars are you using to compile NDN-CPP in C++11 mode?

#2 - 08/14/2014 10:36 PM - Alex Afanasyev

I used just ./configure, I'm using macports and have the following env:

```
PKG_CONFIG_PATH=/opt/local/lib/pkgconfig:/usr/local/lib/pkgconfig:/usr/lib/pkgconfig
PATH=/opt/local/bin:/usr/local/bin:/usr/texbin:/Users/cawka/Devel/devel/depot_tools:/usr/bin:/bin:/usr/sbin:/s
bin
```

#3 - 08/14/2014 10:39 PM - Peter Gusev

Can you please attach/send config.log after NDN-CPP configuration?

#4 - 08/14/2014 10:42 PM - Alex Afanasyev

- File config.log added
