

ndnrtc - Task #3538

Task # 3534 (New): [ndncon/ndnrtc] Bugfixing and optimization

[ndnrtc] Remove unnecessary calculations and output

03/09/2016 05:42 PM - Peter Gusev

Status:	Closed	Start date:	03/09/2016
Priority:	Normal	Due date:	
Assignee:	Peter Gusev	% Done:	100%
Category:		Estimated time:	0.00 hour
Target version:			
Description			
Some metrics like rates and frequencies should be calculated in host application, not inside the library. Need to cleanup statistics gathering subsystem and remove all these redundant calculations and logging for the counters that are not used inside the library.			

History
