

ndn-cxx - Feature #3668

Logging facility: sink auto_flush

07/13/2016 05:58 AM - Junxiao Shi

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Alex Afanasyev	% Done:	100%
Category:	Utils	Estimated time:	3.00 hours
Target version:	v0.8		
Description			
Allow enabling/disabling auto_flush on Boost.Log sink backend for performance vs reliability tradeoff.

Would a simple static void Logging::setAutoFlush(bool) function be enough to implement this feature?

I don't really know why this would be ever needed, but I can quickly implement such customization using NDN_LOG_NOFLUSH environment variable. If defined to any value, auto-flush will be turned off.
