

ndnSIM - Bug #3827

ContentStore policy: inaccurate statement

10/23/2016 11:08 AM - Junxiao Shi

Status:	Closed	Start date:	10/23/2016
Priority:	Normal	Due date:	
Assignee:	Spyros Mastorakis	% Done:	90%
Category:	docs	Estimated time:	0.00 hour
Target version:	2.2		
Description			
docs/source/cs.rst says:			
NFD's content store implementation takes full consideration of Interest selectors, however is not yet flexible when it comes to cache replacement policies.			
This statement is no longer accurate since ndnSIM 2.1, which uses a fork on NFD 0.3.4 that contains a ContentStore policy API #2219 .			

History
